

HTI Services

The HDD industry premier guidance and tooling provider to the Maxi, Mid, and Mini HDD rig markets.

Horizontal Technology, Inc. is a world leader in the supply of steering services and drilling tools for the HDD Industry. From engineering design to final pullback, we provide the best equipment and support the industry has to offer. We can assist from the design stage, to pilot hole accuracy, to opening the toughest rock, to an engineer scaled as-built drawing to close out a successful installation.

From inception (1996), Horizontal Technology, Inc. has differentiated itself from all others by developing its own innovative products, such as DataTraX software, specifically designated for the HDD industry, and the industry's most durable, longest lasting hole opener, the Viper™. Our target has never varied; improved production and margins for our customer: HDD contractors.

Our mission is to be positive assets to our clients and to the successful completion of each and every project without compromising safety or integrity. From pipelines to refineries, beach approaches, intersects, or the toughest

of environmental conditions, Horizontal Technology, Inc. continues to play a key role in some of the HDD industry's most challenging projects. The Horizontal Technology Team is ready to take your call and respond immediately, 24 hours a day, 7 days a week.

Products & Services

- DataTraX Software
- Drill Bits
- Drilling Motors
- Engineering & Design
- Fly Cutters
- HDD Engineered Rollers
- Reamers
- Rig Supplies
- Steering Services

CCI Group of Companies

HTI is a proud member of the CCI Group of Companies. Since CCI's inception in 2004, CCI has steadily grown to meet our client's needs. A key component to our growth has been through a strategy of acquisitions, evolving our company from CCI Inc. to CCI, the Group of Companies. This growth has included the acquisition of Geoterra, Horizontal Technology, the creation of Progress Drilling and CCI & Associates, and the conglomeration of EPiC between CCI Inc. and Midwest.

Highlighted CCI Services: Construction Management, Environmental Services, Geotechnical Engineering, HDD Services & Tools, Pipeline & Facilities Engineering, Shore Approach Engineering, Regulatory, Trenchless Design
